Flush-mounted parts For different design outlets

Flush-mounted parts for rectangular design outlets

Connection housing AG-60	6034355
Connection housing AG-90	6034357
Connection housing quick 75	6046302
Connection housing quick 90	6046296

For supply and extract air in combination with rectangular design grilles.
Made of plastic with 2 connection nozzles DN75 or DN90.
Incl. fixings, end cover, sound damping insert and building protection cover.

Matching visible parts on pages 3 and 4.

Flush-mounted parts for round design outlets

Connection cylinder quick 75 short	6050374
Connection cylinder quick 75 medium	6050375
Connection cylinder quick 90 short	6050377
Connection cylinder quick 90 medium	6050378
Outlet round 90° lateral	2070997

For supply and extract air in combination with
round and square design grilles.

Made of plastic with 2 connection nozzles DN75 or
one connection nozzle DN90.

Incl. fixings, end cover and building protection cover.
Matching visible parts on pages 5 and 6.

Design grilles

Rectangular, made of plastic

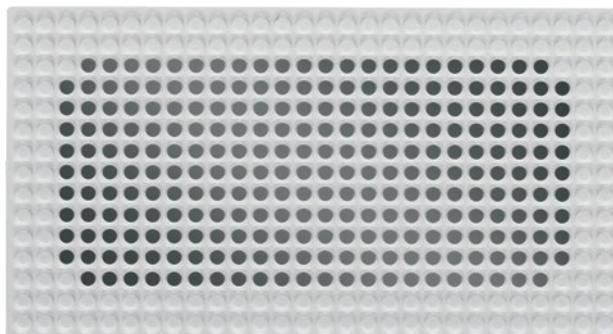

For supply and extract air in combination with rectangular connection housings.

Colour: RAL 9016, can be painted on site (paint-adherent), with plug connection.

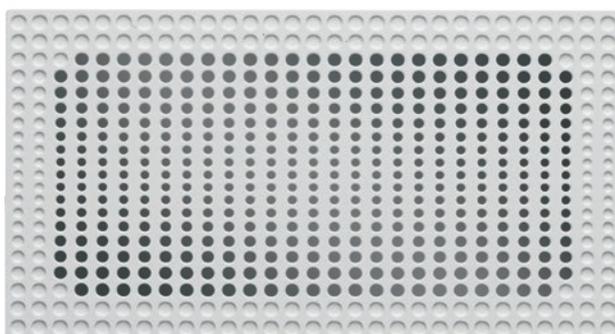

Dimensions: 142 x 262 mm

Design grille Pacific
Part number 6046743

Design grille Adria
Part number 6046744

Design grille Atlantic
Part number 6046745

Design grille Caribbean
Part number 6047228

Design grilles

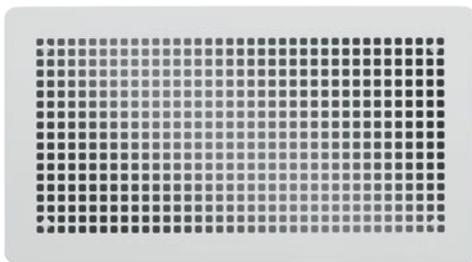

Rectangular, made of steel/stainless steel/aluminium

For supply and extract air in combination with rectangular connection housings.

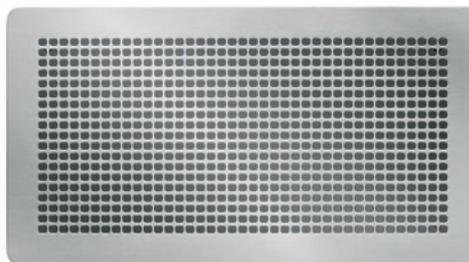

With plug connection, dimensions: 147 x 267 mm.

Each available in two different versions:

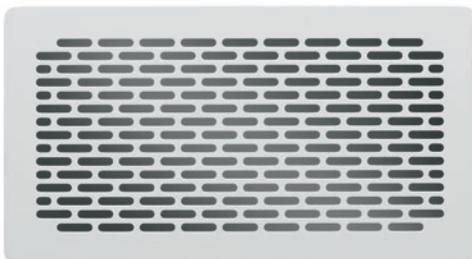

made of sheet steel, white (RAL 9016), stove-enamelled, or brushed stainless steel / aluminium.

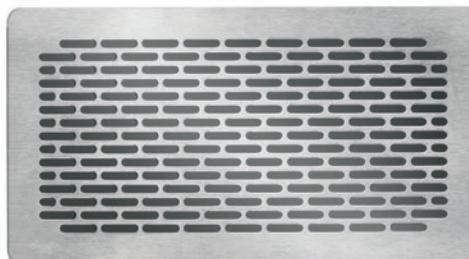

Design grille Pizol
Painted white
Part number 6046698

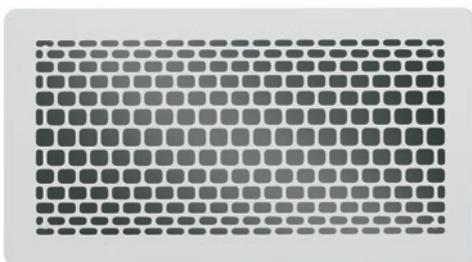

Design grille Pizol
Brushed stainless steel
Part number 6046696

Design grille Alvier
Painted white
Part number 6046702

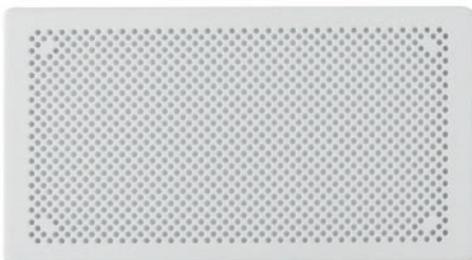

Design grille Alvier
Brushed stainless steel
Part number 6046700

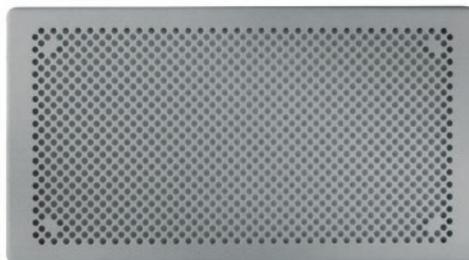

Design grille Sántis
Painted white
Part number 6046726

Design grille Sántis
Brushed stainless steel
Part number 6046724

Design grille Pilatus
Painted white
Part number 6054365

Design grille Pilatus
Aluminium
Part number 6054366

Design grille Tangential, disc valve

Outlets for round connection housings

Tangential

For supply and extract air, made of plastic, RAL 9016 with plug connection, can be painted on site, outside diameter = 170 mm

Part number 6052158

Perfect for guiding the supply air through the ceiling.

Disc valves

For supply or extract air, made of sheet steel (RAL 9016), outside diameter = 165 mm

Supply air TVZ-125
Part number 2056417

Extract air TVA-125
Part number 2056416

Design grilles

Round and square, made of steel/stainless steel/aluminium

For supply and extract air in combination with round connection cylinders.

With plug connection, dimensions: Ø 160 mm / 160 x 160 mm

Each available in two different versions:

made of sheet steel, white (RAL 9016), stove-enamelled, or brushed stainless steel / aluminium.

Design grille Falknis

Made of sheet steel, (RAL 9016) painted white

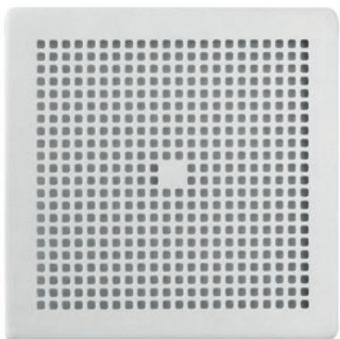

Part number 6052162

Design grille Falknis

Made of brushed stainless steel

Part number 6051847

Design grille Calanda

Made of sheet steel, (RAL 9016) painted white

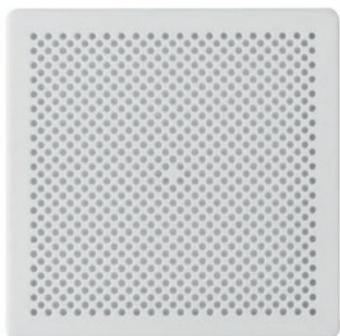

Part number 6052161

Design grille Calanda

Made of brushed stainless steel

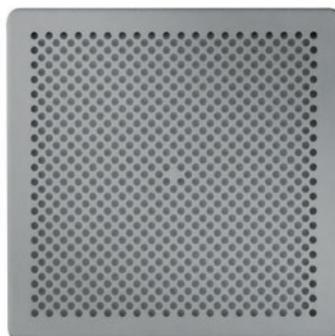

Part number 6051849

Design grille Rigi

Painted white

Part number 6054363

Design grille Rigi

Aluminium

Part number 6054364

Feel the comfort
of fresh, healthy air.

”The high-quality design grilles
are a perfect fit for our home!”

Waldzell

Hoval quality.
You can count on us.

As a specialist in heating and climate technology, Hoval is your experienced partner for system solutions. For example, you can heat water with the sun's energy and your rooms with oil, gas, wood or a heat pump. Hoval ties together the various technologies and also integrates room ventilation into the system. So you can save energy while looking after the environment and your costs – and still enjoy the same level of comfort.

Hoval is one of the leading international companies for indoor climate solutions. More than 75 years of experience continuously motivate us to design innovative system solutions. We manufacture complete systems for heating, cooling and ventilation to more than 50 countries.

We take our responsibility for the environment seriously. Energy efficiency is at the heart of the heating and ventilation systems we design and develop.
